1. ORGANISATIONAL OVERVIEW

- **NAME:** PORTIA M SKIN SOLUTIONS
- **ORGANISATIONAL HISTORY:** ACCORDIND TO MGOMEZULU (2014)
Portia M skin solution is a South African cosmetic brand founded by Portia Mngomezulu, a former engineer who started the business after her mother-in-law recommended traditional Morula oil for her pregnancy stretch marks. Finding it effective, she launched the company with a small amount of money in 2011. Initially she sold oil to friends and family. She worked from home, testing and scaling production before entering the retail market in 2016.
- **MISSION:** become a leading skin care and cosmetic brand in Africa and the world, specializing in high quality skin care that is created from local ingredients
- **VISION:** To become a leading skincare and cosmetics brand in Africa and the world at large, specializing in quality and products created from locally sourced ingredients. The brand defines itself as an industry leader that champions the use of locally sourced African ingredients to deliver world class beauty
- **TARGET AUDIENTS:** The product is recommended for people with stretch marks, uneven skin tone, oily, dehydrated and acne prone skin.

2) WEBSITE GOAL

- **WEBSITE GOALS:** To be able to sell products online and to provide information, help visitors find the written product for their skin, build trust and loyalty before they buy, and educate customers on ingredients and routines, capture leaders on future investments
- **KEY PERFORMANCE INDICATORS:**

QUESTION	KPI
Are people buying	Conversion rate
Do products pages help?	Average. time on page
Are customers coming back	Look at repeat purchase rate
Do they trust us with their emails	Look at lead capture rate
Do they find answers themselves	FAQ visits/support ticket

3) **CURRENT WEBSITE**

- **STRENGTH:** effective ingredients profile, targeted skin concern – products are effective in helping with stretch marks, scars, uneven tone and oily/dehydrated skin. The product is affordable, makes it accessible to customers. The product is also widely available with products stocked in over 2000 retail stores.

- **WEAKNESSESS:** potential for sensitivity some users have reported skin reactions

It takes consistency and persistence for the product to be effective.

- **KEY IMPROVEMENTS ON WEAKNESSESS:** Portia m has expanded its ranges to provide gentler options for sensitive skin. It has introduced RED POMEGRANATE RANGE specifically formulated with pomegranate oil and NIACINAMIDE for sensitive acne prone skin; it is less irritating than the original morula range. they have SULPHATE FREE OPTION which is a face wash available to prevent reactions

4) **PROPOSED WEBSITE FEATURES**

- **Home Page:** A welcoming introduction with product highlights and promotions.

- **About Us:** A simple story of the brand, its founder, and the use of African ingredients.
- **Contact Page:** A quick form and details so customers can reach out easily.
- **Products & Services:** A clean product grid with filters, zoomable images, and ingredient breakdowns to help customers choose the right product.
- **Enquiry Page:** A dedicated form where visitors can ask questions or request more information.

5) DESIGN AND USER EXPERIENCE

- **Style:** Clean and professional design that reflects the brand's identity and reliability.
- **Colors:** Green and yellow as the main brand colors, white for background, and dark grey for text. This combination keeps the site bright, fresh, and easy to read.
- **Text:** Headings will be clear, and body text will be simple to read. Buttons and calls-to-action will be bold, so they stand out.
- **Layout:** A simple grid design that works well on both computers and phones. The homepage will include a large banner, service highlights, and a footer with useful links.
- **Navigation:** Straightforward menus and consistent colors, so visitors always know where they are.

6) REQUIREMENTS

- **Domain Name:** The site will use **portiamskincare.com** as its official address.
- **Hosting:** A secure server to keep the site online at all times.
- **Structure (HTML):** This will form the basic layout of the pages.
- **Design (CSS):** Styling will control colours, fonts, and spacing, so the site looks neat and consistent.
- **Interactivity (JavaScript):** Features like filters, buttons, and enquiry forms will make the site more engaging.
- **Responsive Design:** The site will adjust to work smoothly on both computers and mobile devices.
- **Accessibility:** Features will be added so all users can navigate the site easily.
- **Security:** SSL certificates and safe payment gateways will protect customer information.
- **Maintenance:** Regular updates, backups, and error checks will keep the site secure and up to date.

7) TIMELINES

- **Week 1 – Plan and Research:** Collect ideas, study other websites, and gather pictures and content.

- **Week 2 – Design:** Create the look of the site (colours, fonts, layout) and prepare wireframes.
- **Week 3 – Build Pages:** Start building the homepage, product pages, and contact page using HTML and CSS.
- **Week 4 – Add Features:** Include filters, enquiry form, and interactive elements with JavaScript.
- **Week 5 – Test:** Check the site on phones, tablets, and computers. Fix any errors and improve speed.
- **Week 6 – Launch:** Publish the site online, review feedback, and make final changes.

8) BUDGET

- **Website Design – R15000** For creating the look, layout, and colour scheme of the site.
- **Development – R20000** For building pages, adding filters, enquiry forms, and interactive features.
- **Domain & Hosting – R3000 per year** to register the domain name and keep the site live online.
- **Maintenance and Updates – R5000 every year** to fix errors, update content, and keep the site secure.
- **Marketing & SEO – R7000** To promote the site and help customers find it on search engines.

Estimated Total: R50000 (for the first year)
